Schedule for the Day

1:30pm - Registration, Gathering and Welcome

2:00pm - Keynote Address for Everyone

Dancing with The New Form of Government (NFoG)

Stated Clerk Bill Netting

3:00pm - 5:00pm Workshops

“Basic Training for Clerks of Session”

Stated Clerk Bill Netting

All Clerks of Session of local congregations who have NOT previously received Clerk of Session training should plan to attend this vital and essential training. Clerks who HAVE been trained are also encouraged to attend to learn about new procedures for Annual Reports.

Basic Training for Ruling Elders & Deacons

Ruling Elder Training: Ruling Elder, Kris Gerling

Deacon Training: Deacon Panel Discussion

This workshop will provide basic training for new or experienced elders and deacons, and for those who would like a better grasp of their responsibilities and to know more about the Presbyterian Church (USA).

“The Missional Church”

Dan Snyder, Director Cherry Street Ministries, 1st Lancaster

What is the Missional Church? "Missional" is quickly becoming the next consumer brand label for those hoping to attract hip, savvy (and often disgruntled) North American Christians. But the theology associated with the term has the power to alter the declining condition of the Western Church and give it new energy.

“Reaching the Social Media Generation for Christ”

Josh Gill, Youth Director, Covenant Presbyterian Church

In reaching the social media generation for Christ, we will discuss methods to reach this current generation for Christ. With more than 800 million people on facebook alone; the church must learn to connect with this generation of digital and technological natives.

“From Urgency to Action: Effective Ministry with Children”

Liz Perraud from Regional Advisor for The LOGOS Ministry

From Urgency to Action: Effective Ministry with Children is an interactive presentation that will raise an awareness of the urgent need for effective ministry with young people in order to inspire local church educators, lay leaders, and clergy to take action to connect children to God through Jesus Christ. The LOGOS Ministry’s “Children’s Ministry Effectiveness Model” will be explained and explored as a tool for self-evaluation by the church. Discussion will also include use of the “Youth Ministry Effectiveness Model” for churches.

“Worship that is Welcoming to Today’s Families”

Executive Presbyter Erin Cox-Holmes

This interactive workshop takes a look at worship that says to newcomers “you are welcome here.” What draws people in, from the moment they enter the parking lot to the moment we bless them out the door? We’ll look at everything – from physical space, to the people in worship, to every part that happens in the service.

“Discernment –Discovering What God Desires”

Associate for Healthy Congregations Nan Best

Humans are good at analyzing with hindsight. We commend those who have foresight. Insight gives depth to our decisions. But *faith-sight* releases our plans and decisions so that God’s desires are foremost. And God’s presence in our midst is alive. Come discover how the ancient practice of spiritual discernment is as fresh as today’s next decision.
